LANCE

GO NOW, BECAUSE LATER HAS A BAD HABIT OF BECOMING NEVER....

Amid the uncertainty, one thing you can count on is the distractions that keep us away from doing the things we love, have been greater than ever. Right or wrong, we often give these distractions priority in our lives. The past few months have taught us many things, one being we can work and play while being socially responsible from almost anywhere in this great country. All we need are the right tools for the task. Since 1965, Lance Camper has been building some of the highest quality memory-making tools in the business.

Please enjoy your time reviewing our 2022 product lineup, we are excited to be able to bring you what we consider our best yet!

So, let's spend this season and beyond making more memories with the ones we love.....

*Estimates

** When looking at cargo capacity you must consider the hitch weight of the trailer and axle capacity. Hitch weight is actually being hauled while the remaining Trailer weight on the axle(s) is being towed. Example if a trailer has a total weight of 4000 pounds with a 400 pound hitch weight that would mean 3600 pounds is on the axle(s). If the axle weight rating is 5200 for this unit you will have 1600 of axle capacity for cargo

AVAILABLE AMENITIES

Tri-Five Propane Tanks allow for extended stays while standard aerodynamic cover looks stylish and keeps tanks protected and out of site. – N/A 1475 & 1575

Portable Generator Storage Compartment with Tie Down Straps. Accommodates Honda EU2200i and similar sized portable generators. (Interior Dimensions 19 3/8" (D) x 26 5/8" (W) x 19" (H) – N/A 1475, 1575 & 2465

Optional Exterior Kitchen (2075 & 2445)

Bunk House Models Available (2185 & 2445)

SELECT STANDARD FEATURES

Leaf Spring & Road Armor Suspension – Proven design combined with anti-shock technology, results in less road shock and vibrations transferred from the road to your trailer and ultimately a smoother ride.

Radius & Ducted Roof – Radius roof design ensures proper rain run off while ducted system distributes air more evenly and efficiently throughout the RV. (Ducted Roof N/A on 1475 & 1575)

JBL Bluetooth Speaker – Wirelessly stream your favorite both inside your RV or around the campfire or on the picnic table!

Smart 110V LED TV W/Inverter – Enjoy the benefits of today's latest technology whether using shore power or while camping off the grid!

Electric Stabilizer Jacks W/Footpad – Make setup & teardown sweat free, keeping your trailer stabilized while parked. – N/A 1475 & 1575

Front Nose Cap – Great looking design made with durable material to fend off natures worst! Who says you can't have both form and function!

Entry Door – European influenced radius design with integrated shade and screen provide privacy and bug protection.

Coleman 15M A/C – Quieter running system with heat strip, provides efficient cooling and auxiliary heating source and use of a wider range of generators to power your A/C when not on shore power.

Solid Surface Counter Tops – Residential styled galley counter tops look beautiful while resisting the negative effects of moisture.

Four Seasons Comfort Technology Package - Key features including ducted holding tank heat, insulated hatch covers & fully enclosed underbelly, keep you warmer in the winter and cooler in the summer!

"Lance Life" 4' Exterior Table – We all need one & this one doesn't waste space. N/A 1475, 1575, 2465

2" Receiver (300lb. Limit) – Convenient rear mounted receiver to mount bike racks and carry other appropriate gear.

Latitude Powered Awning – Provides unobstructed shade with direct response wind sensor & LED light bar.

Powder Coated Steel Frame – Highly durable finish which is resistant to corrosion, keeps your trailer looking great!

Solar On The Side – SAE port accepts external aftermarket solar panels to keep your 12v system charged.

SELECT OPTIONAL FEATURES

Shock Absorbers – Take your suspension to the next level by protecting your trailer against less than perfect roads and providing an even smoother ride.

MaxxAir Roof Vent Cover – These popular vent covers keep the weather out while allowing you to keep your vents open while both stationary as well as when on the road!

Truma AquaGo On Demand Water Heater – Provides efficient flow of continuous hot water for all your bathing or dish cleaning needs. (N/A 1475, 1575, 1770, 1875 & 2075)
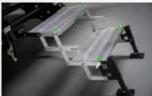

"Lance Load" Roof Rack – Exclusive roof rack system safely stores your canoe, kayak, paddle boards...etc. – N/A 1475 & 1575 (Weight Limit 500lbs. Distributed)

Roof Mounted Solar Panel(s) – Optional 190W panels (up to 2) keeps you and your accessories charged.

UltraSTEPglow Entry Steps – Provides sturdy, adjustable, glow-in-the-dark steps for safe and secure entrance and exit.

Rear Camera – With color display and sound makes backing up a safer, one-person job.

MORryde Slide Out Storage Tray – Rolling smoothly on ball-bearing slides, this heavy duty tray makes storage access in your front storage compartment easy! (N/A 1770 & 2465)

Power Invertor – Converts battery power to 110V power allowing use of select appliances and devices including laptops, CPAP machines and others, while your away from shore power.

Lithium Batteries – The latest battery technology offers more usable capacity vs. traditional batteries in a lighter, safer package

CALCULATING TOWED WEIGHT AND CARRYING CAPACITY

These are general guidelines to use when matching a trailer to your tow vehicle, assuming standard equipment on your trailer. Whether any travel trailer can be used with your vehicle and its capacities for carrying and/or towing is affected by how much optional equipment is added to the trailer, and the weight of passengers and all other items you carry in your tow vehicle and trailer.

To get an approximate weight of the model of your choice equipped with the optional features you are considering, the "Build Yours" feature at lancecamper.com is a great resource. Because we're unfamiliar with your tow vehicle, Lance makes no warranties or representation – expressed or implied – as to performance or reliability of your tow vehicle with a Lance trailer. For professional guidance, always consult with your Factory Authorized Lance Dealer. They're trained in calculating proper matches between tow vehicles and trailers.

### 3,500 POUND TOW RATING

Models: 1475. 1575

6,000 POUND TOW RATING

Models: 1475, 1575, 1685, 1770, 1875, 1985, 1995, 2055, 2075, 2185, 2285, 2295

5,000 POUND TOW RATING

Models: 1475, 1575, 1685

7,000 POUND TOW RATING

Models: 1475, 1575, 1685, 1770, 1875, 1985, 1995, 2055, 2075, 2185, 2285, 2295, 2375, 2445, 2465

A. Overall Weight   **B.** Hitch Weight   **C.** Axle Weight Rating   **D.** Towed weight

*Hitch weight is actually being **hauled** while the remaining trailer weight is being **towed**.*
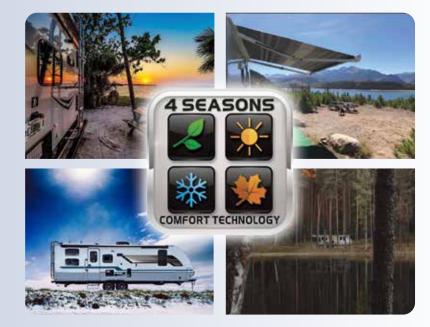

A - B = D
Ex: If a trailer has an overall weight of 4k lbs. with 400 lbs. of hitch weight that would mean 3600 lbs. is on the axles and being towed. (4,000 − 400 = 3,600 or **D**. *Towed Weight*)

Cargo capacity must also consider hitch weight as well as axle weight rating.

C - D = Cargo Capacity
Ex. If the axle weight rating is 5200 (2600 each x 2) for this unit you will have 1600 lbs. of axle capacity for cargo. (5,200 − 3,600 = 1,600 *or Cargo Capacity*)

4 SEASONS COMFORT TECHNOLOGY

KEY FEATURES

Ducted heat is routed into individually insulated holding tanks to keep them, the valves and PEX lines warm.

Water heater bypass & winterizing valves make draining the system for winter storage a breeze.

Insulated hatch covers add an additional layer of insulation to vents and sky lights.

Fully Enclosed Underbelly – from "tip to tail", your heated holding tanks and junction valves are protected from the elements, allowing operation over broader temperature ranges.
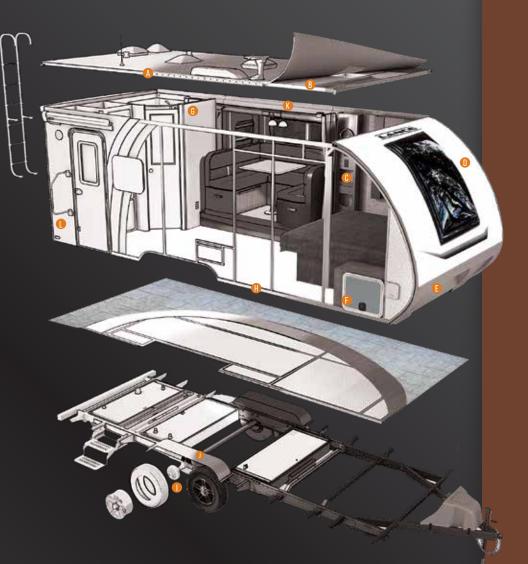

DESIGN & CONSTRUCTION

A. The roof is covered in an energy-star rated Thermoplastic Polyolefin (TPO) material. Integrated rain gutters and drip spouts prevent the sides of your trailer from streaking.

B. Rigid block foam insulation yields maximum "R" value and promotes structural strength.

C. Interior walls and cabinetry are constructed of Euro-Ply. This superior product is lighter, formaldehyde free and stronger. Providing both beauty and durability.

D. Keeping it all together are stainless steel fasteners. Unlike our competitors, this expensive hardware resists corrosion making for a lasting investment.

E. Fiberglass upper nose cap with TPO lower gravel guard with LED lighting, combine for beautiful and resilient protection from the abuses of the road.

F. All seals use an anti-wicking material to prevent moisture from transferring to the laminate walls.

G. Lance uses more expensive Azdel™ in place of Luan wood, virtually eliminating mold and mildew. It's also lighter, carcinogen and formaldehyde free and has better "R" value for superior insulation.

H. Lance's aluminum framed superstructure provides for an extremely solid trailer that is also lightweight.

I. Heavy duty leaf spring suspension with "Road Armor" equalizer system and optional shock absorber package, absorbs bumps and vibrations resulting in a more comfortable ride with less stress on your trailer.

J. Engineered lightweight powder coated, tempered steel chassis provides a reliable and proven platform for years of trouble free operation.

K. Slideout rooms feature smooth, dependable operation. Lighter in weight than other mechanisms, they're also smaller, allowing for more living space.

L. The slick, gloss fiberglass exterior walls are laminated under intense pressure with heat-setting adhesives for years of trouble-free service.

2 YEAR STRUCTURAL LIMITED WARRANTY

20 YEAR ROOF LIMITED WARRANTY
